

GROW

A Christian based
growth mindset

Faith Community Christian has partnered with Building Blocks Therapy, LLC to bring inclusive education into the classroom. As a team, we provide an inclusive plan in order to help your student.

We believe in inclusive education and the belief that all children were created in the image of a living God. As a part of education, we believe there is a place and belonging for each child in God's kingdom.

From communication needs to classroom accommodations, we seek to provide care for your student with a growth mindset approach. We believe every child will GROW!
